

# MYR GROUP PROJECT EXPERIENCE

---

## Black Hawk Casino

### Project Owner

Windsor Woodmont Resort Corp.

### Location

Black Hawk, Colorado

### Magnitude

The project consisted of a 60,000 square foot casino gaming area with a 30,000 square foot administration area and a 5-story parking structure.

This project entailed supplying the building with a 4000 amp, 3-phase, 4-wire electrical service and the facility utilizes a 1750 kW emergency generator with three UPS systems for their critical operating loads. An intelligent fire alarm system protects the entire facility, including the 5-story parking structure. Electrical radiant heaters warm the exterior public areas.

### Duration

March 2000 through September 2001
