

MYR GROUP PROJECT EXPERIENCE

Platte Valley Replacement Hospital

Project Owner

Platte Valley Medical Center

Location

Brighton, Colorado

Magnitude

Performed electrical construction services for new construction of the buildings, including core and shell, and tenant finish. This project called for new “green field” construction of a hospital, located on 50-acres within the planned community of Bromley Park, to replace the old Brighton facility. The project consists of two, 3-story buildings with more than 287,301 square feet on the new campus, which is nearly three times the size of the original facility.

The buildings include a 98-bed patient tower, and a diagnostics and treatment building. Design of the full campus provides future build-out potential of six stories and 300 beds, which would make PVMC a full-scale regional medical center. Facility is LEED certified, constructed using LEED principles, which are inherent in the design of the facility.

Duration

May 2005 through May 2007

MYR Group Headquarters Location
1701 Golf Rd., Suite 3-1012 , Rolling Meadows, IL 60008
